EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Janell Cleveland on 7/11/05.

The application has been amended as follows:

2. Claim 20 has been cancelled, as there were issues of 35 U.S.C. 112 second paragraph
3. The claims have been renumbered as follows: claim 3 is now claim 1, claim 9 is now claim 2, and claim 10 is now claim 3. Newly named claim 3 (i.e. original claim 10) has been amended to correct dependency due to renumbering of the claims as follows: "claim 9" has been replaced with --claim 2--.
4. The following amendments have been made to the specification.
5. At the beginning of page 1, the following sentence has been added: --This application claims benefit to Provisional Application 60/116,240, filed January 15, 1999.--
6. On page 13, line 15 "RMPI1640" has been replaced with --RPMI1640--.
7. On page 15, line 30 the previous annotated amendment of 3/19/00 has been disregarded. Instead, --by-- has been inserted between "encoded" and "plasmid".
8. Applicants are reminded that formal drawings are required as indicated by the Notice of Draftperson's Patent Drawing Review mailed 11/7/00, as an attachment to Paper No. 9.

Art Unit: 1633

9. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because: there is no evidence that the three inventors were aware of the signing by each other inventor. That is the page signed by each inventor does not contain any reference to the other inventors. It is acceptable that inventors sign a different copy of the oath/declaration, however there must be reference to the other inventors on each signed copy. Thus even though inventor 1 may sign one copy of the oath/declaration and inventor 2 may sign a separate copy of the oath/declaration, both inventors 1 and 2 must be listed on each copy of the oath/declaration that was signed.

10. Applicant is now required to submit a substitute declaration or oath to correct the deficiencies set forth in this communication. The substitute oath or declaration must be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability" (PTO-37). Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136. Failure to timely file the substitute declaration (or oath) will result in **ABANDONMENT** of the application. The transmittal letter accompanying the declaration (or oath) should indicate the date of the "Notice of Allowance" (PTOL-85) and the application number in the upper right hand corner.

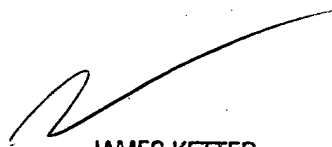

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick S. Riggins whose telephone number is (571) 272-6102. The examiner can normally be reached on M-F 7:00-3:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dave T. Nguyen can be reached on (571) 272-0731. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
